

Automobile or Car Accidents

There are approximately six million (6,000,000) motor vehicle accidents every year in America. Over twenty-five thousand (25,000) fatalities result from these accidents annually. Every minute you spend in a car or a truck increases the likelihood of coming across someone else that is not paying attention, who is driving too fast, driving while tired, while on the phone, while texting, while intoxicated, or while focusing on the scenery rather than the road.

The fact is that more people under 34 years of age die in automobile collisions than by any other means. The insurance carriers give fighting the claims arising out a collision a tremendous amount of money, time and research. They extensively train every one of their adjusters in the psychology of how to manipulate you into settling for the absolute least amount of money as possible. The failure to do so directly impacts their profitability for shareholders.

If you have been in an automobile collision, it is imperative that you find an attorney who has the knowledge, experience and ambition to represent you as well as the integrity to meet with you individually and pay attention to your injuries and concerns. Our firm has been successfully assisting our clients with their personal injury cases since 1967, and we would welcome the opportunity to help you and your family.

Don't delay! We can help you today! Free Consultation! (501) 843-7576

We make home visits and hospital visits in certain cases! The faster we can get started on your case, the better your chances!

Also, there is no charge for an initial consultation! You owe us nothing unless we recover compensation for you!

Please contact us online or call us at (501)843-7576 or toll free at (888)459-3077.
